## iPods

If you are trying to find a iPod store you have found us. We have all the information you are looking for about iPods. Now lets talk about what you are looking for.

There are currently five models of iPod available today. The names of the models are iPod Classic, iPod Touch, iPod Nano and iPod Shuffle. Each model has its nitch. Below I have wrote a little summery of each model. You can get in to your own iPod for as low as \$79 all the way up to \$399. iPod accessories are available for all the models for your home, car or your body.

### [iPod Classic](#)

The old iPod Video is now called iPod Classic. This is the only model that uses a hard drive to store your music, videos and photos. By using a hard drive for storage you are able to store more data than any other model of iPod. The Classic has the largest capacity with the 160GB of storage. Apple has also made the battery life much better with the Classic with the new model now having 30 to 40 hours for audio playback. If you are watching videos you get 6 to 7 hours of play time. For more detail on the [iPod Classic click here](#).

### [iPod Touch](#)

The new iPod Touch is just an iPhone without the cell

phone components in it. The Touch looks, feel and function the same as the iPhone. The iPod Touch coverflow lets you look at the covers of you albums. It plays videos, has WiFi(802.11b and g) and iTunes Store where you can buy all your music when you are out having fun. Apple has also teamed with Starbucks so you can shop the iTunes store in any Starbucks for free. If you want to know more about the [iPod Touch click here](#).

### [iPod Nano](#)

The iPod Nano now has Coverflow and video playback but does not have the touch screen like the Touch. Apple has also put in a Hi-Resolution screen at 220ppi. The iPhone only has 160ppi. The screen measures 2 inches diagonally. This in one thin video player. The iPod Nano now comes with some games. Sudoku and Vortex are a couple of the games it comes with. You can get your Nano in one of five colors with red being one of the colors. If you want to know more about the [iPod Nano click here](#).

### [iPod Shuffle](#)

The iPod shuffle is the small iPod without a screen. Nothing has changed on the shuffle other than you can get it in red now. It only comes in 1GB with a clip-on it. If you want to know more about the [iPod Shuffle click here](#).
